Dear Hiring Manager,

I am writing to express my interest in opportunities within your organisation. As an ICT professional with over 30 years of experience across multiple sectors of the technology industry, I am excited about the prospect of contributing my extensive technical expertise and strategic leadership skills to drive your organisation's continued success.

Throughout my career, I have successfully managed complex technical projects, led diverse teams, and delivered innovative solutions that drive operational efficiency and business growth. My experience spans network systems management, project implementation, and business operations across industries including healthcare, manufacturing, and telecommunications. Most recently, as Owner/Operator of SupportCALL (PTY) LTD, I established and grew a comprehensive ICT support business, maintaining client relationships spanning over 20 years and achieving 95%+ satisfaction rates through customised technical solutions and preventative maintenance programmes.

My core strengths include strategic planning and stakeholder management, combined with hands-on technical capabilities in areas such as AI and machine learning, data analysis, and system configuration. I am particularly interested in organisations that value innovation, technical excellence, and long-term client relationships. My proven track record in leading technical teams, implementing process improvements, and managing change initiatives positions me well to make a significant contribution to your organisation's objectives.

I would welcome the opportunity to discuss how my experience and skills can benefit your team. I am available for an interview at your convenience and look forward to hearing from you.

Yours sincerely,

David H Maree

To me, our clients are rockstars, and we're the technical team making IT happen.

Thank you for your time.
